EDUCATION

Gurukula Kangri (Deemed to be University) (GKV), Haridwar (UK)

Bachelor of Technology in Computer Science & Engineering | CGPA: 9.03/10

Jul 2020 – Jun 2024

Prince Sr. Sec. School, Sikar (Rajasthan)

RBSE(XII) | Percentage: 80.40%

Jul 2016 – May 2019

PROJECTS

I. Doctor Appointment | React, JavaScirpt, NodeJs, MongoDB

Jan 2025 – Jun 2025

- Implemented secure authentication and appointment management with Node.js, Express.js, MongoDB, and JWT, supporting user profile updates.
- Integrated Razorpay payment gateway for secure real-time appointment payments and implemented slot booking with conflict resolution.
- Implemented CRUD operations to interact with a MongoDB database, ensuring seamless data persistence and retrieval for rule execution.
- Integrated RESTful APIs and third-party libraries like Axios, React Toastify and Razorpay for seamless UX, notifications, and payment gateway functionality in a responsive web environment.
- Utilized Postman for thorough API testing and validation, ensuring accurate rule application and robust API functionality

II. E-Commerce Application | React, JavaScript

- Developed a fully functional e-commerce website using React and JavaScript.
- Implement Frontend with the help of JavaScript, HTML5, CSS3
- Bootstrap used for dynamic styling
- Design template taken from Figma
- React Router and Redux for state management

III. Weather Application | React, APIs

- Developed a comprehensive weather application using React for the front-end, incorporating dynamic data fetching and state management.
- Integrated multiple third-party APIs to deliver real-time weather updates, forecasts, and historical data.
- Crafted a responsive and user-friendly interface, optimizing the user experience across diverse devices and screen sizes.

TECHNICAL SKILLS

Languages: JavaScript, Java, HTML/CSS, SQL

Runtime & Frameworks: Node.js, Express.js, ReactJS, Bootstrap, TailwindCSS

Developer Tools: VS Code, IntelliJ IDEA, MySQL Workbench, MongoDB Compass, Postman, Git, GitHub

Areas of Interest: Data Structures and Algorithms, MERN-Stack Development, Software Development

POSITIONS AND RESPONSIBILITY

Event Management

DEC-2020 TO MAY-2024

- Helped plan and run cultural events and college fest.
- Promoting events through various channels to maximize attendance and participation.
- Managing budgets and expenses related to event planning and execution.
- Evaluating event success and identifying areas for improvement for future events.
